The feed chute, sieve, press screw and juice container consist of just three parts

DRIP STOP

To close the juice outlet

EXTRA LARGE FILLING CHUTE

7.8 cm with automatic filler cover

GASTROBACK®

**SLOW JUICER
VITA FRESH**

Description:

- Extra large feed chute: 7.8 cm for effortless feeding of whole fruit and vegetables
- Powerful 200 watt motor enables juicing of firm vegetables such as carrots and beetroots as well as fibrous ingredients such as celery and ginger
- Particularly effective for juicing green leafy vegetables, herbs, grasses and berries, which often cannot be juiced as well in centrifugal juicers
- Ideal for a variety of recipes and nutritional needs, including juice as a base for sorbets and smoothies
- Slow cold pressing process with 50 revolutions/minute, reduces heat development and oxidation during juicing
- Healthy nutrients, vitamins. Enzymes and minerals are optimally preserved
- High-quality juice with an intense colour and rich flavour
- High juice yield, more juice from ingredients with less waste compared to centrifugal juicers
- Longer shelf life in refrigerator (up to 72 hours)
- Dark tinted filler chute and juice tray for additional vitamin protection, made of high-quality tital material (tastless, odourless, heat-resistant and shatterproof)
- Automatic filler cover: practical and safe, for a continuous juicing process
- Robust press screw made of particularly scratch-resistant and hard plastic with stainless steel core, BPA-free
- Fine stainless steel sieve for clear and pure juice
- Continuous operation for up to 20 minnutes for larger quantities of juice
- Reverse function: Prevents clogging with ingredients and makes it easier to juice fibrous ingredients, can also be used as a cleaning function
- With overheating protection, guarnatees the safety and longevity of the appliance
- Easy to assemble and clean: The feed chute, sieve, press screw and juice container consist of just three parts and are dishwasher safe
- Very quiet operation (noise level below 68dB) ideal for use in the early morning or late evenings
- Compact size, product dimensions 17.8 x 15.2 x 45 cm, ideal for any kitchen
- 90 cm long mains cable, weighs only 2.7 kg
- Includes 800 ml juice container, pulp container and cleaning brush
- BPA-free slow juicer, easy to clean thanks to fewer parts and cleaning brush supplied
- With recipe ideas for helthy juices
