GYRO / GIMBAL

Hâws GYRO S5B turns your cell phone into a professional video camera, helping you to create beautiful and stable video recordings with just your phone! There's built-in AI technology that allows you to follow subjects, as well as various advanced time-lapse features to help you capture all those unforgettable moments! By turning the large and easy-to-use control wheel, you can smoothly zoom in or out of the scene to create more varied footage. Once you've pressed the follow focus button, the control wheel changes so you can manually adjust the focus and create other types of shots.
