

DOUBLE AIR FRYER 2 x 4.5 L

hâws

DOUBLE AIR FRYER 2 x 4.5 L (9L)

Hâws double Air fryer gives you the opportunity to get crispy and juicy food without the high calories and large amounts of oil and without PFAS in the coating.

Air fry technology is the term for a hot air fryer that uses up to 75% less oil when cooking. The air in the air fryer circulates faster and cooking time is shortened compared to a traditional oven. The shortened cooking time can save on your electricity bill.

HUGE CAPACITY FOR FAMILY SIZE of 9L divided into 2 baskets with 4.5L capacity in each. This means you can cook 2 meals in one go. The temperature is adjustable from 80-200 degrees. The product makes a sound when a program is over and also has auto shut-off and overheating protection.

AIR FINISH FUNCTION: You can start different foods in the two baskets with different cooking times and temperatures at the same time. Even if the cooking methods have different times, the Air Finish function ensures that both are finished cooking at the same time.

MATCH COOK FUNCTION: designed to have the same food in both baskets (e.g. twice as many fries), the baskets are set identically with just a few clicks, so the contents are finished at the same time. The product can cook meat, vegetables, cakes and much more. Only your imagination is the limit for this product. The coating is ILAG and it is PFAS free.
