

AIR FRYER 7,5 LITRES

hâws

AIR FRYER 7,5 LITER - 2150W

With this Air Fryer, you can easily cook crispy and juicy food without the high calories and large amounts of oil.

The air in the Air Fryer circulates faster and cooking time is therefore shortened compared to a traditional oven. The shortened cooking time can save on your electricity bill.

7.5 L CAPACITY, you can make large portions of your favourite dishes for family or friends in no time.

The cool touch handle makes it easy and safe to handle the drawer once you've finished cooking. The drawer and grid are dishwasher safe for easy cleaning.

ADJUST THE TEMPERATURE (from 50-200°) to your preference with the adjustable thermostat and plan your meals with the timer function or use one of the 10 pre-set programmes. When the dish is ready, you'll get a buzzer signal to alert you that the food is ready.

With non-slip feet, it stands firmly and stably on your kitchen worktop.

DUAL HEATER, so it heats from both the top and bottom for even better heat distribution.

The coating is ILAG and it is PFAS free.
