

PORTABLE BLENDER

# hâws

## PORTABLE BLENDER

Powerful freedom on the go

Experience the freedom to blend anywhere with the Hâws Portable Blender. With a generous 700 ml capacity and a powerful 240 W motor, it delivers silky-smooth smoothies, shakes and juices – straight in the drinking bottle.

The advanced dual-direction blending technology ensures that even tough ingredients are blended evenly, while the sharp 6-point stainless steel blades (SUS304) work efficiently at up to 18,000 RPM.

The smart design in food-grade Tritan plastic combines light weight, durability and practical use. With USB-C charging and a strong lithium battery, you get multiple blends on a single charge – perfect for the gym, office or travel.

The compact shape, non-slip silicone ring and cap with spout make the blender easy to use and take along. Thanks to the intelligent function, the motor automatically reverses if the blades get stuck – for a smooth experience every time.

CAPACITY: 700 ML
